To Whom It May Concern

LETTER OF RECOMMENDATION

Delloyd Industries (M) Sdn Bhd is a leading original equipment manufacturer for major automotive manufacturers and assemblers in Malaysia.

As part of our plant and equipment upgrading exercise, we had purchased a 10Tonne Overhead Crane from Top-Mech last year for use in our manufacturing base in Klang.

The feedback which we have received from our operators and maintenance technicians is that the crane has been very reliable and always available even during the peak production seasons.

I could not recall any situation where the services provided by Top-Mech have not been to our satisfaction.

And not forgetting the prices have been always competitive too.

A recommendation to anyone who wants to have a reliable crane at a competitive price!

Yours faithfully
For **DELLOYD INDUSTRIES (M) SDN BHD**

CHUA SOO SEONG
